

EXO MEMO

MEMO (Mobile Nursing Module) facilitates the monitoring of hospitalized patients by allowing the recording of parameters and actions in the clinical history in real time, avoiding various errors.

BENEFITS

- ✓ Identify, access and update the H.I.S. at the foot of the bed.
- ✓ Reduces errors in medication delivery.
- ✓ Optimizes time in nursing tasks.
- ✓ Facilitates the certification of quality and patient safety standards.
- ✓ Improves drug stock control.
- ✓ Easy to transport, with brakes and great autonomy.
